The Committee was called to order by Chair Stefani Cook at 8:50 a.m.

The committee discussed recommendations that they will present to the entire Technology Task Force for consideration to the legislation.

The topics were:

- Increase professional development (PD) time at the schools and incorporate PD into the school calendar.
- Review the current funding formula and consider changes to the funding formula that reflects needs as a result of Students Come First and the 21st century classroom.
- Professional development at the district level.
- Develop a system to provide and support instructional coaches.
- Develop multi-year comprehensive professional development plan reflecting the needs across the legislation.
- Build an evaluation and outcome measurement component to the PD plan that links to student learning connected to college and career.
- Develop strong training and support for IT professionals as a part of the PD plan.
- Develop an overall project management plan that provides transparency to the implementation and support for the full legislation taking into consideration an integrated approach to the implementation design.

There being no further business to come before the Committee, the meeting was adjourned at 10:35a.m.
